

Inspection scores are determined by the health inspector at the time of inspection. Using the Washington State Department of Health inspection form, Health Code violations are worth a certain number of points, ranging from 2 points - 25 points depending on the violation. Violations are also categorized by color. Red points are high-risk, or critical violations that pose greater risk to public health. These violations are often worth more points. Blue points are violations that are considered low risk, and are often worth less points. Combined points are the sum of red and blue points. A zero point total indicates no health violations were cited during the inspection. Based on Whitman County Enforcement Procedure, a failing score is 40 or more red points, or 50 or more combined points.
