

News Release

For immediate release: March 27, 2020

Contact: Troy Henderson, Director of Public Health, 509-397-6280 – Bill Tensfeld, Director of Emergency Management, 509-397-5605

Whitman County has received 2 more positive COVID-19 test results on Friday, March 27, 2020, bringing the total to 5 within the County. Both of them are 50-59 year old males who are stable and isolating at home. Public Health Department is investigating close contacts of the 3 most recent positive patients. More information to follow as available.

The Whitman County Health Department regularly updates their Facebook page with helpful information regarding personal protection and the status of county health operations.

The Washington Department of Health has established a call center to address questions from the public. If you have questions about how the virus is spread, and what to do if you have symptoms, please call 1-800-525-0127 and press #.

The Whitman County Health Department website contains information concerning COVID-19. Please visit <https://www.whitmancountypublichealth.org/>. The DOH website is your source for an additional healthy dose of information - [doh.wa.gov](https://doh.wa.gov). Find both the Whitman County Health Department and the WA DOH on Facebook.
