

News Release

For immediate release: April 6, 2020

Contact: Troy Henderson, Director of Public Health, 509-397-6280 – Bill Tensfeld, Director of Emergency Management, 509-397-5605

Whitman County has received 1 more positive COVID-19 test result which brings the total to 12 within the County. The new positive is a female aged 40-59. Patient status is unknown at this time, Whitman County Public Health is investigating.

The CDC recommends wearing homemade masks in public where social distancing is impractical.

The best way to mitigate the spread of COVID-19 is to social distance at all times, remaining 6 feet away from people as often as possible.

The Whitman County Health Department regularly updates their Facebook page with helpful information regarding personal protection and the status of county health operations.
