Whitman County has received three new positive COVID-19 test results, which brings the County total to 73. Case #71 is a male between the ages of 60-79 years old. Case #72 and #73 are both males between the ages of 40-59 years old. 2 are stable and self-isolating and 1 is hospitalized.

Current COVID-19 activity highlights the need for individuals to maintain social distancing and personal vigilance. Masks are an easy and effective way to reduce the spread of COVID-19.

The Whitman County Health Department regularly updates their website with helpful information including phased opening guidance, personal protection and the status of county health operations.

Future Whitman County press releases will be as needed.
