Whitman County has received four new positive COVID-19 test results bringing the County total to 80. Two of the cases are females, one between the age of 20-39 and the other between the age of 40-59. The other two are males, one is between the age of 20-39 and the other is between the age of 40-59. All are stable and self-isolating.

Current COVID-19 activity highlights the need for individuals to maintain social distancing and personal vigilance. Masks are an easy and effective way to reduce the spread of COVID-19.

The Whitman County Health Department regularly updates their website with helpful information including phased opening guidance, personal protection and the status of county health operations.

Future Whitman County press releases will be as needed.
