Whitman County has received two new positive COVID-19 test results, bringing the County total to 124. One is female between the ages of 60-79 and the other is male between the ages of 0-19. Both are stable and self-isolating. 100 of the 124 have been cleared to discontinue isolation and 24 are stable and self-isolating.

Current COVID-19 activity highlights the need for individuals to maintain social distancing and personal vigilance. Masks are an easy and effective way to reduce the spread of COVID-19.

Future Whitman County press releases will be as needed.
